The impact factor is derived from the consolidated citation data received via Google Scholar, DOAJ and ProQuest survey under the purview of University of St. Gallen. Self citations are not considered while calculating Impact Factor and Cited Half-Life statistics.

Cumulative statistics derived from print and online versions:

<table>
<thead>
<tr>
<th>Statistic</th>
<th>2010</th>
<th>2011</th>
<th>2012</th>
<th>2013</th>
<th>2014</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Impact Factor</td>
<td>0.835</td>
<td>0.814</td>
<td>0.821</td>
<td>0.791</td>
<td>0.715</td>
<td>0.752</td>
</tr>
<tr>
<td>Immediacy Index</td>
<td>0.272</td>
<td>0.259</td>
<td>0.264</td>
<td>0.215</td>
<td>0.166</td>
<td>0.183</td>

International Journal of Computer Applications (IJCA) regularly attempts to improve the impact factor of the journal; with the help of authors, researchers, teachers and students. In this regard, we are inviting more international referees to our Reviewer list from the upcoming issues. We also request the IJCA authors to participate in the Cornell University program. The IJCA copyright agreements are modified accordingly to allow Cornell University Library non-exclusive and irrevocable license to distribute or certify that the work is available under another license.
that conveys these rights.
