Abstract

Today's world is all about technology, our life is contingent upon technology. Little change in technology makes huge differences on today's business. Cloud computing is a virtualized compute power and storage delivered via platform-agnostic infrastructure of abstracted hardware and software accessed over the internet.

In this paper, it is equipped with all the details about cloud computing. It also includes a brief overview about Oracle database, Oracle RAC and Oracle cloud computing. This paper is focused on advantages of cloud computing. It also focuses on the steps to setup Oracle RAC on cloud.
