Abstract

E-learning could be a great tool that has contributed in facilitating education for individuals round the world. There’s a necessity, however, for creating e-learning on the market to disabled individuals. This paper presents a web accessibility framework that offers the benefit of the web accessing for the Tamil disabled users and facilitates their long learning. The essential objective of this framework is that the support of the equal rights of Tamil disabled individuals for his or her access to the education and coaching.
