Abstract
Most of times patients may forget to take the medicines at proper time as per the specified in
the prescription which may cause in late recovery from the disease/illness. So it is necessary to
take proper medicines in proper quantity at proper time. In this paper we introduce an Android
based application for the patients. This application will remind their user to take proper
medicines in proper quantity at proper time by automatically setting the reminders in the mobile.
These reminders will be automatically set by the application as per the prescription. This
reminder will remind their user patient that now it's time to take the medicine.
